CAREER OBJECTIVE

Motivated BSIT graduate seeking an Associate Software Engineer or Junior Software Engineer role to apply my skills in Python, SQL, Git, and software development while contributing to innovative solutions and growing as a software engineer.

WORK EXPERIENCE

IT Operations / IT Support Intern Concentrix	Feb. 2026 – April 2026
- Reimaged and installed Windows OS on workstations, preparing systems for deployment. - Configured user accounts and VPN access, enabling secure and timely user onboarding. - Deployed, upgraded, and troubleshooted desktops and hardware, ensuring operational readiness. - Managed IT asset inventory and equipment lifecycle, maintaining accurate tracking records. - Processed workstation setup, retrieval, and replacement requests, supporting daily IT operations. - Monitored and documented IT support tickets, improving issue tracking and resolution efficiency.	

ADDITIONAL EXPERIENCE

AGROSENTINEL: IOT & NDVI-BASED CROP DISEASE DETECTION & SPRAYING SYSTEM	Dec. 2025
- Assisted in the development of an AI-based agricultural robot with automated spraying during the capstone project - Contributed to the assembly and integration of hardware components, including Raspberry Pi 5, ESP32, motor drivers, sensors, and spraying system - Helped in setting up and testing the robot's movement and spraying functionality - Provided minor support in training the AI model for plant disease detection using image data	

EDUCATION

Our Lady of Fatima University – Quezon City Bachelor of Science in Information Technology	2022 – 2026
---	--------------------

TECHNICAL SKILLS

Basic Familiarity: Python, SQL
Version Control: Git
Soft Skills: Teamwork, Cross-functional Collaboration, Communication

CERTIFICATIONS

Introduction to GitHub Version Control
Python for AI: Accelerating Innovation Through Data and Algorithms
IT Specialist: Python – CertNexus
Python Data Associate – DataCamp | July 2026
Introduction to SQL - DataCamp | July 2026
Working with the OpenAI API - DataCamp | July 2026
Security Compliance and Identity Fundamentals - Microsoft | July 2026
